EXPERIENCE

Team Lead - Software Engineer

Moveo.AI

2022 June - Present

- Provided technical leadership and expertise in React and related technologies to guide the team in making informed technical decisions.
- Conducted code reviews, ensuring code quality, adherence to coding standards, and consistency with project architecture and coding conventions.
- Ensured the overall health of the codebase, managing technical debt, keeping dependencies up to date, and maintaining codebase quality and scalability.
- Collaborated closely with design team to ensure the design system's effectiveness and applicability.

Javascript Developer

Moveo.AI

2020 April - 2022 June

- Created, updated, and maintained various features in the customers dashboard.
- Maintained close communication with the UI/UX team to enhance product quality.
- Implemented clean, maintainable and testable code.

Web Developer

GAME OVER Escape Rooms - Cube Challenges

2018 January - 2020 March

- Created Cube Operating Software, a system used for the operation of the CUBE gameplay, using React.js, PHP, MySQL and Electron.js.
- Developed fully responsive and code-validated websites using HTML5, CSS3, JS and Bootstrap.
- Improved SEO of existing websites, which resulted in higher Google Rankings.
